## Long Arm Quilting service

If you are interested in having your quilt long armed, please contact us.

The first table (on the next page) shows the guide price for long arm quilting with one of our standard patterns. The actual price for quilting may vary by up to £20 dependant on several factors, the most important of which is the complexity of the pattern chosen and the actual dimension of your quilt.

The cost of a bespoke pattern, if requested, will be discussed and agreed in advance of quilting.

The second table shows the cost of the binding service. This includes making the binding, from your fabric, and attaching the binding to the front of the quilt by machine.

The third table shows the cost of hand stitching the binding to the back of the quilt.

There is usually a 4 - 8 week lead time between booking your quilt and the quilt being finished. You cannot book a quilt in before the quilt top is finished.

If you are in a hurry for your quilt, we can offer a 2 week lead time, which is offered at the managements discretion. There will however be an additional £50 charge for this service.

We can also supply wadding and extra wide fabrics.
